ESP SUPPLEMENTS

HEART FORMULA

CoEnzymeQ10 is the essential vitamin/enzyme supplement for the heart. It is present in all cells, responsible for the production of the body's own energy, used by the heart and other muscles to facilitate contraction as blood is pumped through the body, and 95% of all the body's energy requirements is converted with the aid of this essential nutrient.

Hawthorn Berry is the essential herb for heart health with its excellent properties of reducing calcification, reducing blood clots, providing many of the nutrients necessary for the health of the heart, as well as reducing inflammatory bowel diseases, and being of medicinal value to the cardiovascular system, the liver, and the digestive system.

Alpha lipoic acid is an essential cofactor for many enzyme complexes, an effective antioxidant, increases production of glutathione, helps to dissolve toxins, and neutralize free radicals.

Lycopene is an antioxidant which is a free-radical scavenger. Ongoing preliminary research shows that lycopene is beneficial to the heart as well as a preventative associated with reduced risk of heart murmur, high blood pressure, coronary heart disease, congestive heart failure, stroke, macular degenerative disease, and several types of cancer, including breast and prostate cancers.

Omega 3, 6, & 9 fatty acids support heart health in the following ways: promotes proper triglyceride and cholesterol levels, promotes lean muscle mass, burns fat, tones muscles, promotes healthy blood flow by supporting blood vessels.

Olive Oil offers protection against heart disease by controlling LDL (bad) cholesterol levels while raising HDL (good) levels. No other naturally produced oil has as large an amount of mono-unsaturated fatty acids as olive oil -mainly oleic acid.

Lecithin prevents vascular diseases and degenerative arterial diseases. Lecithin improves the elasticity of blood vessels, transports triglycerides out of the liver, and is an emulsifier of fats.

Cayenne and heart health are synonymous. It increases metabolism, has an immediate effect on the circulatory system as it feeds the vital elements into the cell structure of capillaries, veins, arteries, and helps adjust blood pressure to normal levels, as well as cleaning the arteries. It is beneficial to the gastrointestinal system aiding digestion, also stimulating the peristaltic motion of the intestines.

Quercitin has significant anti-inflammatory properties because it inhibits the manufacture and release of histamine and other allergic mediators. Quercitin has positive results in helping to prevent heart disease, cataracts, respiratory diseases, allergies, and most notably it can help males with chronic prostatitis, possibly because of its action as a mast cell inhibitor.

Vitamins A, B Complex, C, D, E, Calcium, all help the above nutrients to be absorbed, assimilated, and utilized.

ESP SUPPLEMENTS Heart Formula can be taken or given as a dietary supplement for a healthy heart, for any heart ailments, and for protection against heartworm.

Directions: 1/2 dropper directly in the mouth 1- 2 times daily on an empty stomach, depending on the severity of the ailment. As protection against heartworm once a week is sufficient, unless you live in an area that has a high possibility, then it would be once a day.
